

List of Implemented Corrections

General Formatting -

Remove title, author placeholder text at the top and bottom of pages.

Change template to Springer single column.

Equations -

Remove empty space before/after.

Remove colons before equations.

Justify "where" to the left.

Number main equations only, don't number expansions.

Add punctuation(commas, periods)

References - Replace "Figure $\{x\}$ " with "Fig. $\{x\}$ "

Replace "Equation $\{x\}$ " with " $\{x\}$ "

Define terms once, avoid "stupid" writing.

Figures - Ensure labels are similar scale to text.

Place figures 1 on top of the other.

Adjust captions to match basic papers.

Use "k - time steps" as the x axis unit.

Block Diagrams -Center the yellow block.

Use straight lines when possible.

Add dots at intersections.

Ensure that connections only move in 1 direction.

Ensure that spacing is proportional between nodes.
